

Thule Chariot Corsaire Rain Cover

➤ Instructions

GENERAL WARNING

- Never leave a child unattended in the Thule child carrier and store the rain cover out of reach of children to avoid any possibility of suffocation.
- Ensure that the rain cover is dry before storing to avoid mildew.

NOTICE

When used in conjunction with the two-in-one cover; install and close the rain cover over top of the two-in-one cover. Use the clips on the front of the two-in-one cover to close both covers by feeding the clips through the loops on the front of the rain cover.

For carriers not equipped with brake arms; loop the ends of the side straps onto the brake bolts on the bottom of the Thule child carrier.

USING THE RAIN COVER

- To put the cover on the Thule child carrier; remove the handlebar and slide the holes at the top of the cover over the upper frame. Ensure that the cover is not inside-out.
- To close the cover; pull down on the clips at the bottom of the cover and buckle them onto the front of the Thule child carrier. Pull the side straps back and hook the ends onto each of the brake arms.
- To open the cover; unhook the side straps and unbuckle the front clips.
- To remove the cover from the Thule child carrier; remove the handlebar, open the cover and slide the top of the cover up, off of the upper frame.
